Shortage Experienced in Southwest-

Previously, on warm days, even in the middle of winter, there wa-enough gas but during this spring the pressure seems to fail occasionally without regard to the condition of the Shortage Experienced in Southwestern Part of City Today.

This morning the gas pressure was rood until shortly after breakfast time.

Lut by noon in some parts of town there was hardly enough gas to cook dinner with. The southwestern part of the city seems to be the district To the south and west the most of the trouble is found.

Without regard to the condition of the weather. No renson is known for a shortage of gas today as the weather from the north. A peculiar feature of the trouble is that the shortage is generally experienced on a windy day.

Reports from the northwestern district and several other parts northward indicate that the gas is all right.

To the south and west the most of the trouble is found.

# IVANHOE UP TO DATE

The "Tournament" Is Issued by H. S Class in English Literature.

What the sport page of a modern wspaper would have looked like in the days of chivalry, when Ivanho Jess Willard, is shown by a little fourpage publication called "The Tournament," which is gotten out by the Ivanhoe class of the English depart-

Ivanhoe class of the English department of the high school.

"The Tournament" was published to tell of the big First district baskethall tournament now taking place and also to give a humorous take-off on the way a tournament in Ivanhoe's time would have been reported by a modern newspaper. It contains a mediaeval sport column, society page and police record. Also a page of jests which are actually mediaeval.

In the police court items is the following:

lowing:

"Issac of York asked for a warrant for the arrest of Prince John Plantagenet in the police court today. He accuses the prince of picking his pocket at the tournament. John pleaded divine right of kings and the warrant was refused."
